

Dear STK members and friends,

it is my pleasure to announce that the [STK Annual Meeting 2020](#) will be dedicated to **Mastering Heat for Environment and Processes** and will take place on the premises of **Sika in Zurich** (Tüffenwies 16, CH-8048 Zürich):

In 2020, the STK society will celebrate its 45th Anniversary. Our Annual Meeting will take place on two half-days:

- **Tuesday 12. May 2020 afternoon (from 14h00)**
- **Wednesday 13. May 2020 morning (to 12h30)**

In order to honor our faithful members and friends, the STK board prepared a **Special Event on Tuesday night**: the Meeting Dinner (**included in the Registration Fee, no additional cost**) will happen during a **3-hours boat trip on the Lake of Zurich!**

The Call for Abstracts will be published early in 2020.

I hope to see many of you at this special occasion!

With my best regards,

Pierre Brodard
