

Thermische Analyse Dag 2012

The "Thermische Analyse Dag 2012" was organised on **Friday November 23th**.

Location: The Strip Conference Center
High Tech Campus 1
5656 AE Eindhoven

The sponsor of this symposium, [EXPERTA](#), is thanked very much.

Programme TAD-2012

- 09:00 Reception with coffee / tea
- 09:30 Opening of the TAD 2012 by the president of the TAWN (Paul van Ekeren)
- 09:32 Welcome to the participants and introduction of EXPERTA by Wim Pinnoo
- 09:45 David Eskenazi (ULc - Université de Liège): "Simultaneous thermogravimetry and differential scanning calorimetry coupled with mass spectrometry for study of phosphates nitridation in ammonia"
- 10:15 Niko Van den Brande (VU Brussel): "Thermal annealing in organic photovoltaics studied by fast-scanning calorimetry"
- 10:45 Coffee / tea
- 11:15 Prof. Anthony Beezer (SETARAM-ICTAC Award Winner): "After 5 decades of change in Calorimetry what is the next project?"
- 12:15 Marco Hartman (AKTS): "Simple Test for Detecting Influence of Sample Aging on its Thermal Behavior. Peculiarities of Different Kinetic Models"
- 12:35 Lunch
- 13:35 Vincent Mathot (SciTe & KU Leuven): "Bernhard Wunderlich: a Pioneer in Crystallization, Thermal Analysis & Calorimetry"
- 14:20 Sandra Guns (KU Leuven): "Investigation of the applicability of poly(ethyleneglycol-g-vinylalcohol) as a carrier in the formulation of solid dispersions of poorly water-soluble drugs"
- 14:50 Adam Harris (C-Therm Technologies): "Characterizing the Thermal Conductivity of Advanced Polymers"
- 15:10 Tea / coffee
- 15:30 Ko Schaap (Benelux Scientific): "From micro-TA to Nano-TA. How AFM is expanded with analytical capacities. Techniques and Applications"
- 15:50 TAWN general assembly
- 16:30 Closure of the TAD 2012 by the president of the TAWN (Paul van Ekeren)

(last changed: March 13, 2013)
